From Simon Holt, our Sales Director of 15 years

“ At T. Freemantle, we understand the rising costs and challenges in the food and beverage industry, especially when it comes to automating packing operations.

With over 30 years of experience, we don't just make machines—we deliver simple, cost-effective packing solutions tailored to your needs.

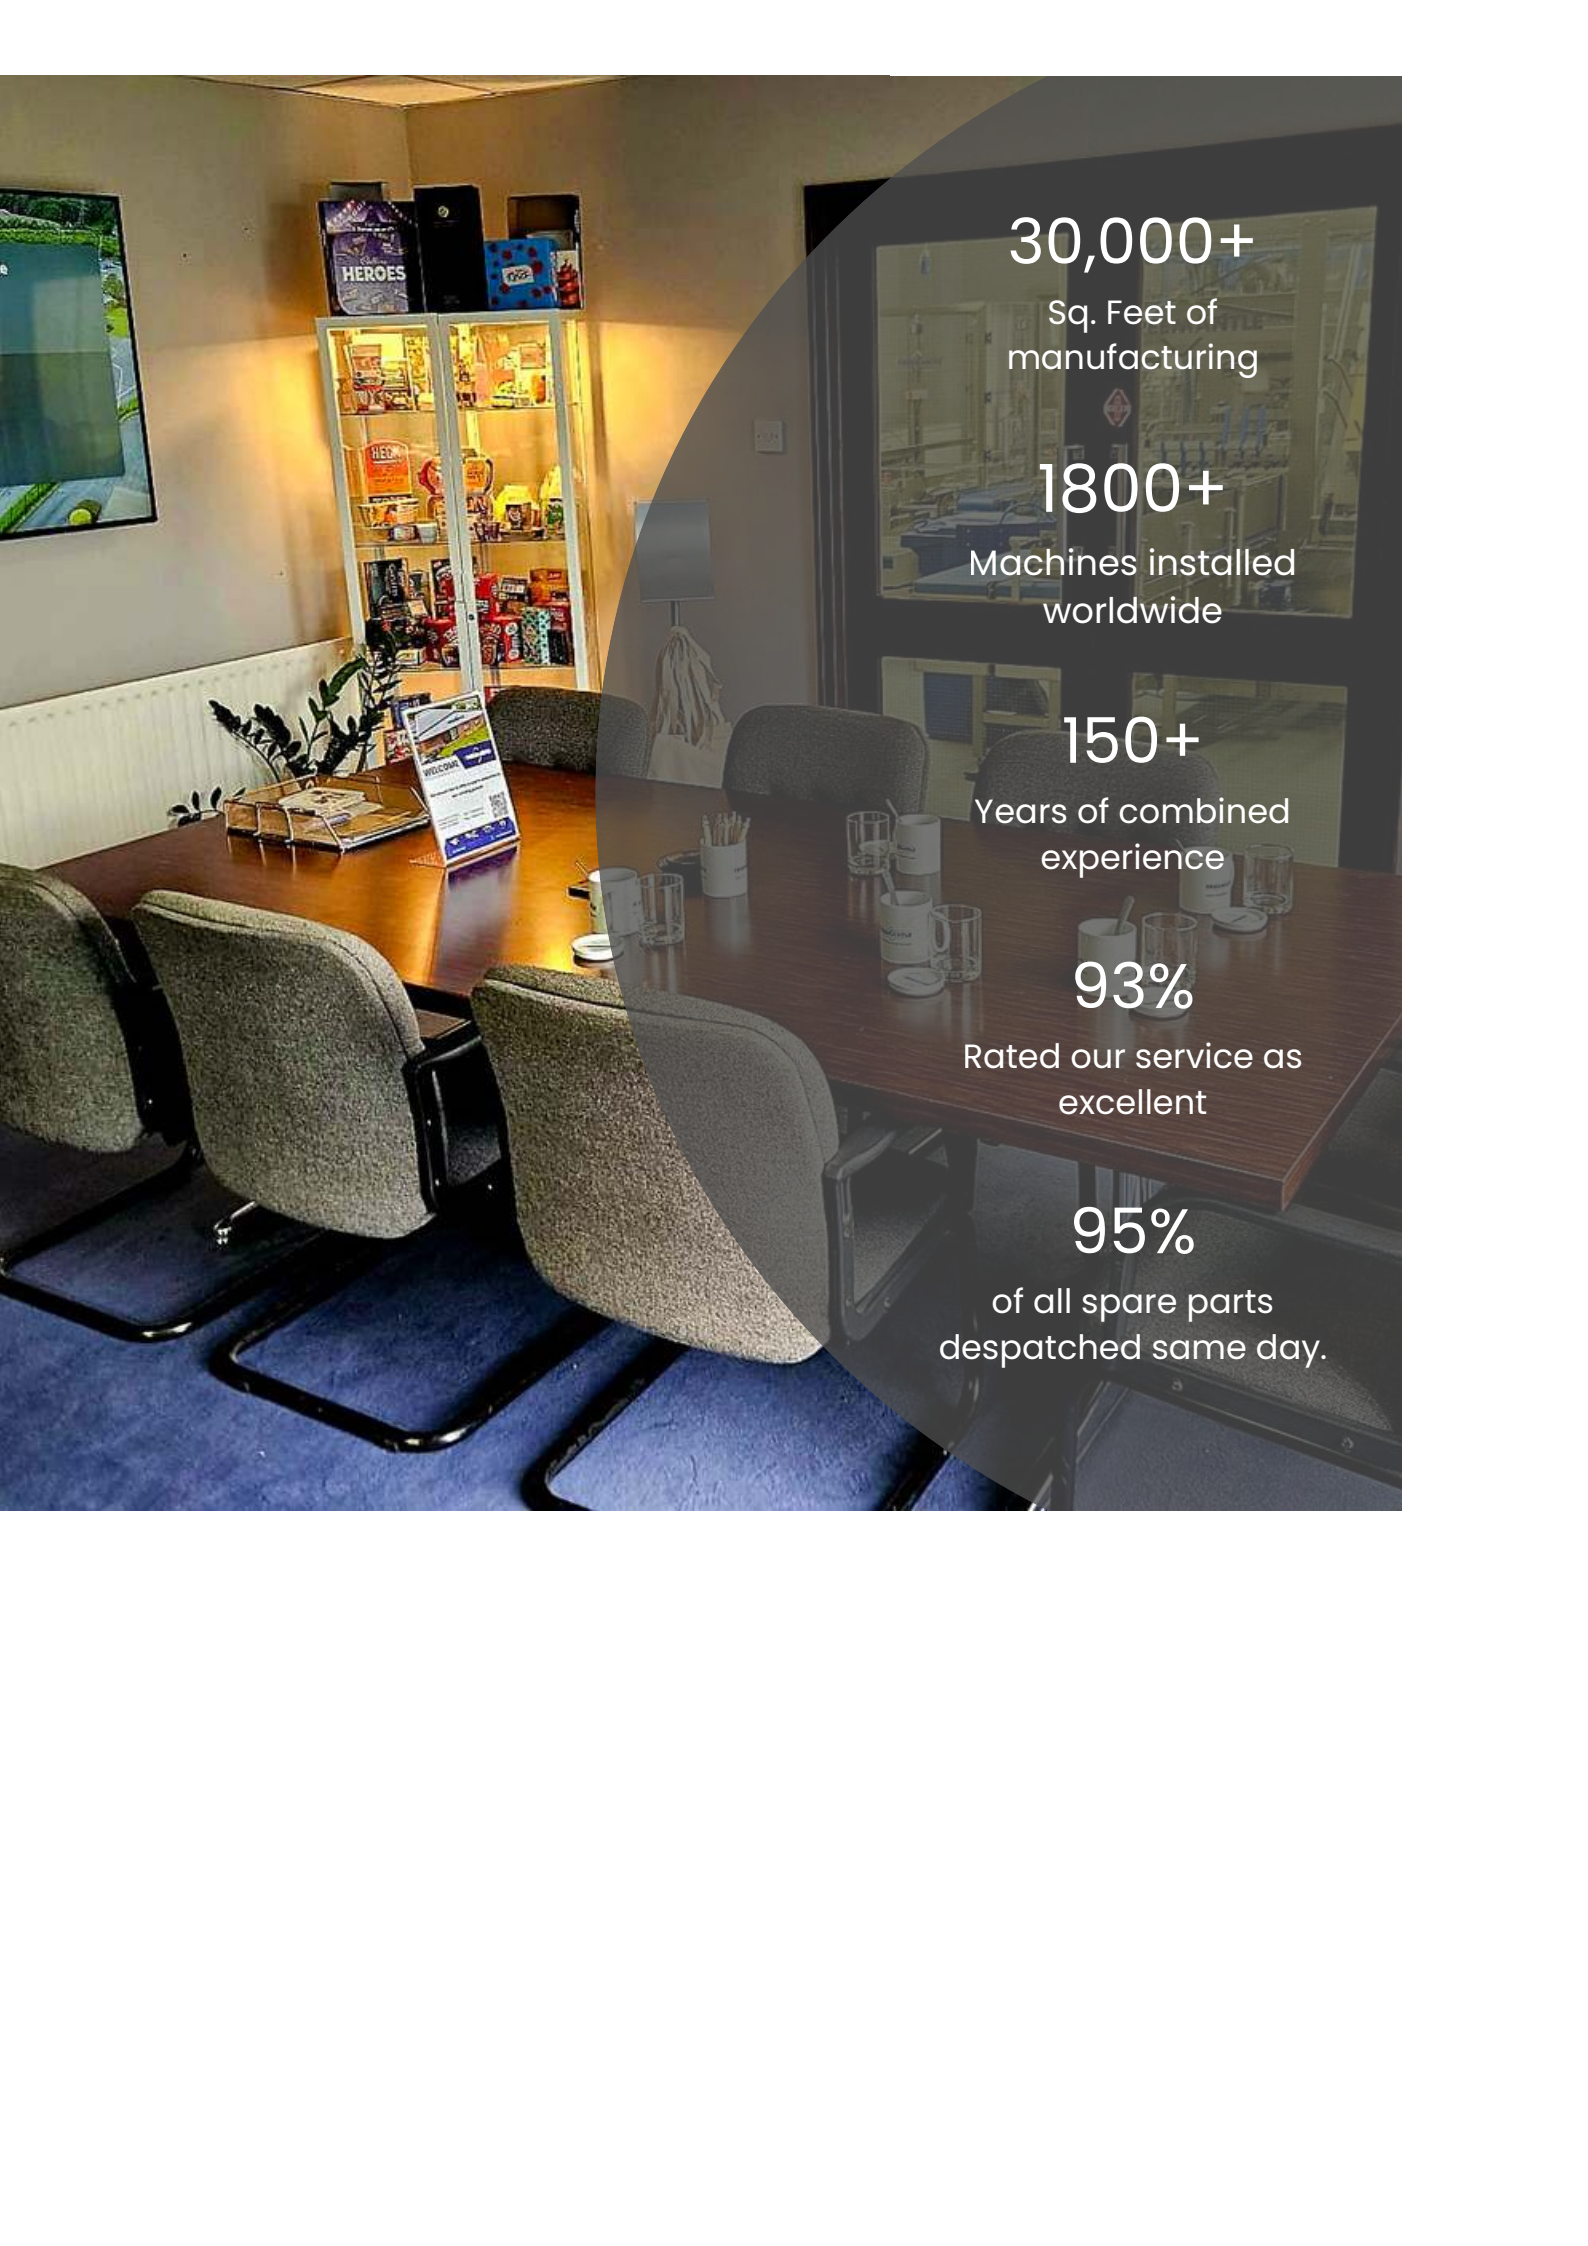

Our dedicated, long-serving team is driven by strong values, a focus on apprenticeships, and a commitment to making it easy and enjoyable for customers to work with us.”

ABOUT

T. Freemantle Ltd is a UK-based manufacturer of packaging machinery delivering automation solutions to businesses across the globe.

As a market-leading business of over 30 years, we are now a part of Lifco, a global organisation comprising 257 companies operating across 34 countries.

SLEEVING SOLUTIONS

T Freemantle sleeving solutions cover multiple variations of sleeves, including wrap-around sleeves, pre-glued and beverage sleeves

S01

COMPACT PRE-GLUED SLEEVER

The most compact sleever in our range, the machine is ultra flexible, simple, reliable and hygienically designed. With a list of unique features this unit is leading the way in sleeving automation.

FIND OUT MORE

S09

WRAP-AROUND SLEEVER

Compact, hygienic sleeving system with open-frame design for fast cleaning. Applies wrap-around sleeves to standard, unstable, and complex packs.

FIND OUT MORE

S11

PRE-GLUED SLEEVER

Our patented Preglued Sleever remains the market leading machine for packing ready meals into carton board sleeves. The sleeving machine offers the maximum amount of flexibility with fully automatic operation.

FIND OUT MORE

CARTONING SOLUTIONS

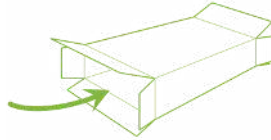

T. Freemantle cartoning solutions handle a wide range of carton types, including tuck-top and crash-lock, offering flexibility for different products and production needs.

S05

CONTINUOUS CARTON SEALER

Our super flexible Continuous Carton Sealer is used to glue seal the ends of manually filled cartons. Giving accurate and efficient glue application and delivering consistently well finished tamper evident sealed packs.

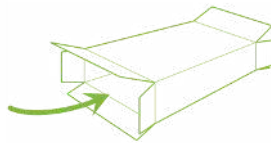

FIND OUT MORE

S07 SEMI

SEMI-AUTOMATIC CARTONER

Our semi-automatic cartoner combines flexibility and automation, handling carton erecting, folding, and sealing while the operator loads the product.

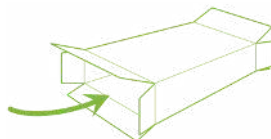

FIND OUT MORE

S07 AUTO

FULLY AUTOMATIC CARTONER

Our fully automatic cartoner maximises efficiency and line speed, handles multiple product sizes, and is ideal for high-volume production.

FIND OUT MORE

BEVERAGE SOLUTIONS

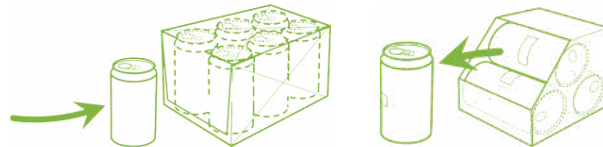

T. Freemantle beverage packaging solutions include cartoners and a tray and case packer, providing flexible, high-efficiency options for a wide range of drink products.

S07S B

SEMI-AUTOMATIC BEVERAGE CARTONER

Ideal for wine, tonics, juices, soft drinks, and alcohol, handling 2,000–10,000 bottles or cans per hour (up to 40 four-packs per minute).

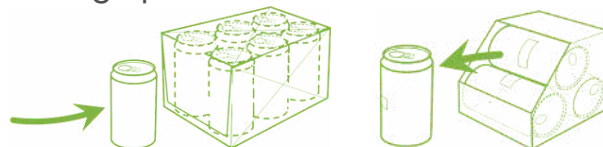

FIND OUT MORE

S07A B

FULLY AUTOMATIC BEVERAGE CARTONER

Handles multipack cans and bottles in 4, 6, 8, and 12 packs at up to 30,000 products/hour, offering simple, flexible operation with no change parts.

FIND OUT MORE

S16

TRAY AND CASE PACKER

This versatile 2-in-1 machine forms trays of varying heights and a wide range of shelf-ready cartons, ideal for large beverage collations (12–30 counts) and multi-layer food cases.

FIND OUT MORE

TOP LOAD SOLUTIONS

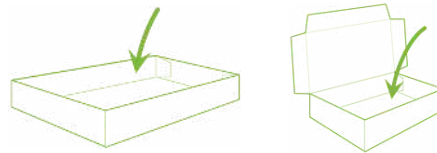

T. Freemantle top-load solutions include tray erectors and three-flap closers, delivering fast, reliable packaging for a variety of products and formats.

S13

TOP-LOAD CARTON ERECTOR

Our hygienic, water-washable top-load carton former delivers high-quality cartons with PLC-controlled servo drive for efficient, reliable performance in any production environment.

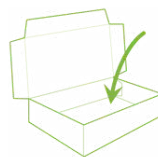

FIND OUT MORE

S19

THREE-FLAP CLOSER

Our hygienic, water-washable three-flap closer combines robust design with high performance, easy access, and market-leading features for reliable, efficient operation.

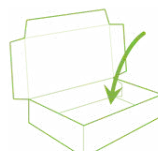

FIND OUT MORE

S13 + S19

TOP-LOAD ERECTOR & CLOSER LINE

This fully automatic line forms and seals a wide range of square or rectangular cartons using three sections: carton former, loading conveyor (manual or automated), and carton closer.

"Excellent"
Rated Service Team

UK-Wide
Mobile Service Engineers

As a Northern-based manufacturer located in an area of the world renowned for its strong industrial heritage & manufacturing, we are proud of the fact that our T Freemantle machines are built here in Scunthorpe but used and trusted all over the world.

Working together

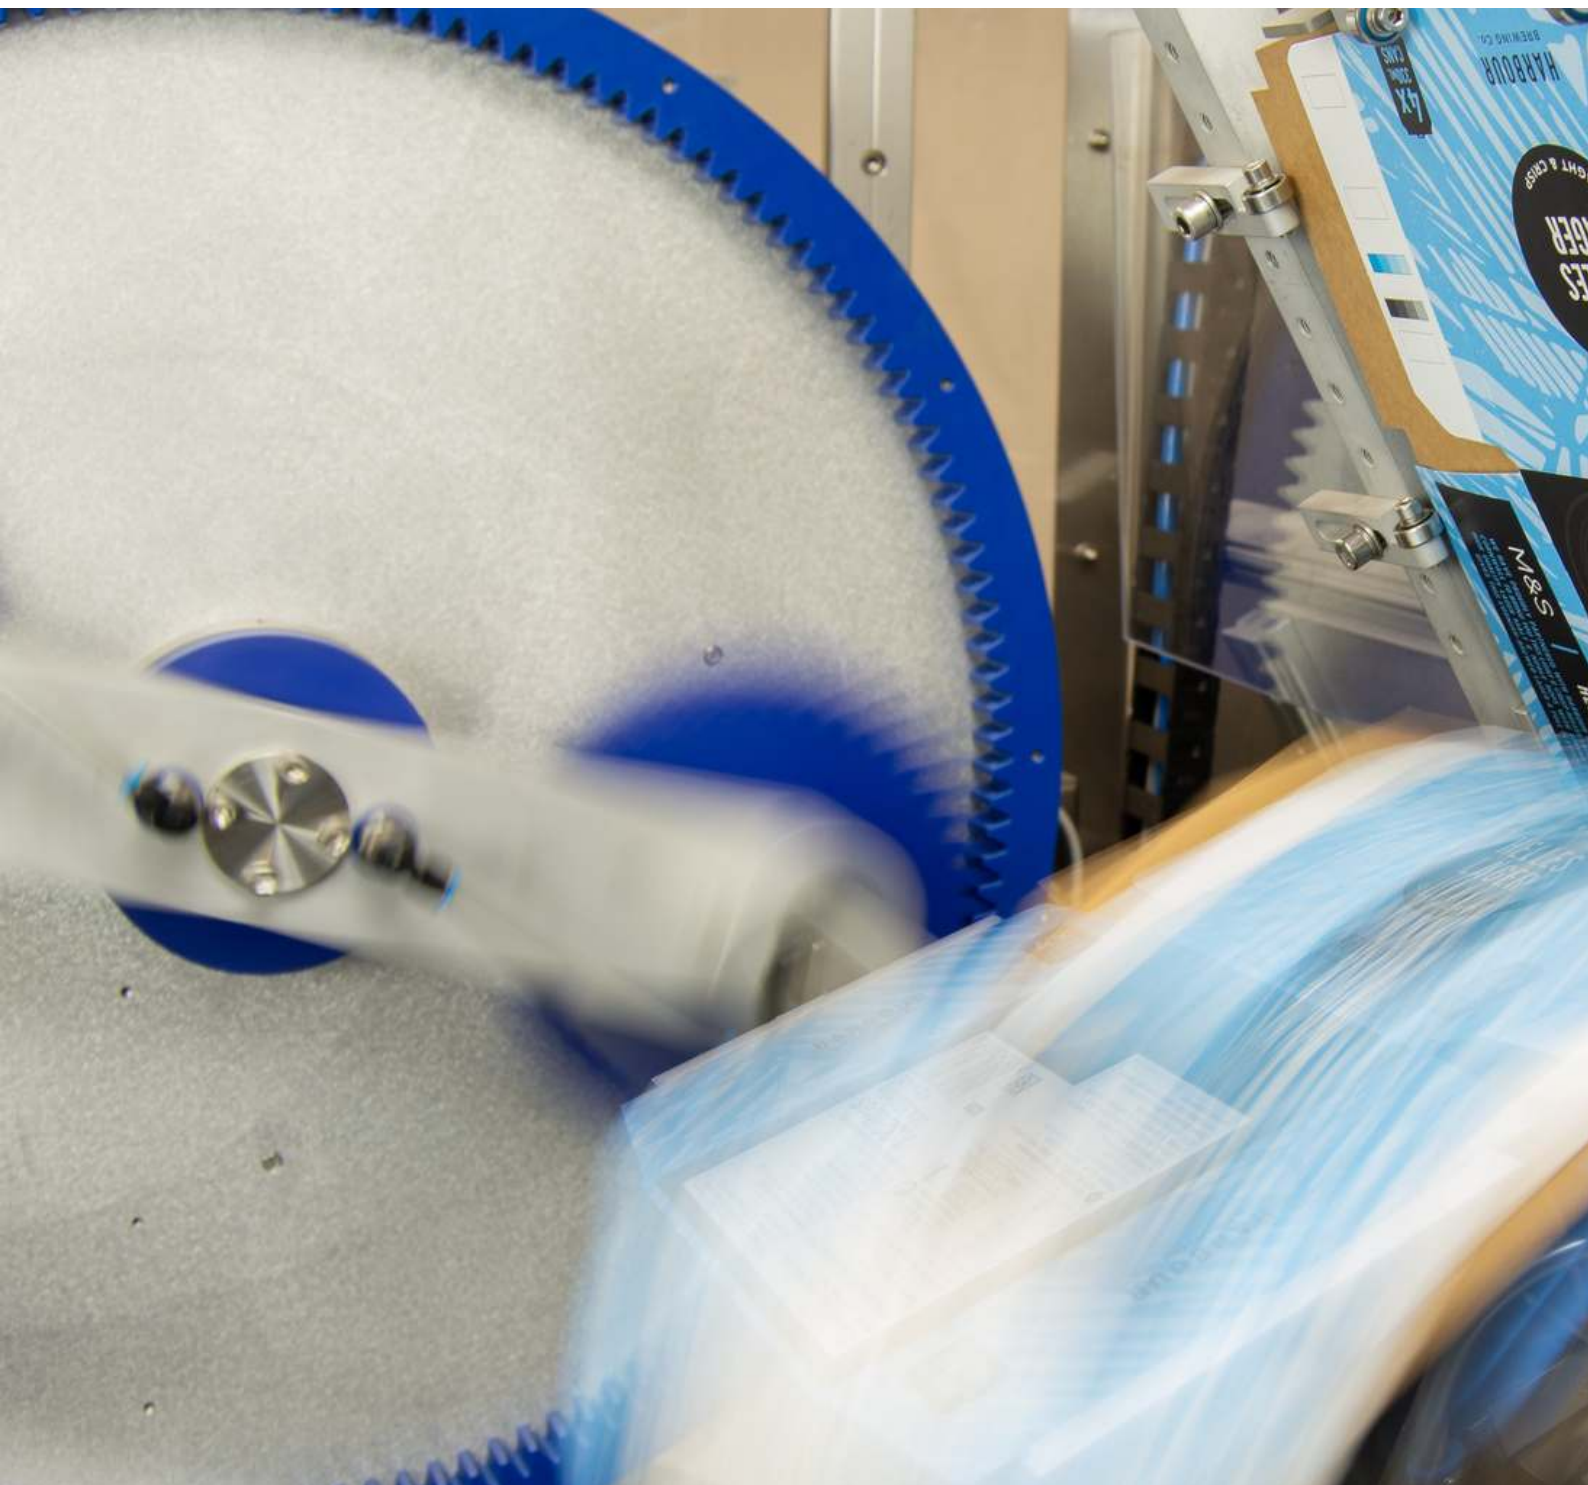

Every project at T. Freemantle is the result of close collaboration between our experienced engineers and our valued customers. Simon worked alongside the chief engineer at Belvoir Farm for the installation of their Automatic beverage multipack, ensuring their investment in our state-of-the-art machine was managed seamlessly from start to finish of the project. TESTIMONIALS

“It’s important that you like who you are working with. I felt the machines were easy to use and train the team on, and British manufacturing is so very important to us here at Heck.”

Andrew, MD at Heck Foods

“Freemantle were as supportive as I had remembered them to be all those years ago, proving that industry connections really do matter. They had me up and running with a cartoner in no time at all.”

Richard, MD at Sweet Moments

“We did look at other machinery manufacturers, but they couldn’t compete on timeframe, price, format flexibility, fast and simple clean-down, or parts/service availability.”

Chief Engineer at Belvoir Farms

REWORK & RENEW

Our refurbishment program designed to make old machines as good as new
Allowing businesses to benefit from affordable automation whilst making us a more sustainable business.

SUSTAINABILITY

LIFCO

As a part of Lifco Group, one of our goals is to reduce our environmental impact, create a safe workplace, and adhere to a high standard of business ethics. We align our strategic approach with the UN Global Compact's ten principles for sustainable development.
